

Which program is right for your child?

Therapy Services

May have a diagnosis or developmental challenges

Activities are designed to meet therapy needs and goals

Would benefit from peer interaction and lots of movement

Identified PT/OT needs, goals are established with therapist

Goals are documented on weekly and a therapy summary is provided at the end of the 10 weeks

May be eligible for private insurance reimbursement

Play Partner

Models age-appropriate social and play skills

Benefits from learning inclusion and empathy through nature connection activities

Enjoys being outside and thrives in small groups

Does not have identified OT/PT needs- may have a sibling or friend who is receiving therapy in the group

Receives weekly update email and photos

Not eligible for private insurance reimbursement
